

Construction timeframe

Construction is just one step in the process. The preliminary engineering plans are scheduled to be completed by fall 2012. Final design efforts will be completed by 2013, followed by substantial construction activities along the corridor currently scheduled to begin in 2014.

Function	2012	2013	2014	2015	2016	2017	2018	2019
